

STEP 2 – Make a Plan:

Now that you've identified the hazards, make a plan to correct them. Some problems can be fixed at little or no cost e.g. securing bookcases to walls, closed hooks for pictures and mirrors. Larger problems will require a retrofit, remodel or incremental upgrades as finances allow. When purchasing furnishings, look for strong latches on cabinet drawers and shorter bookcases that don't require securing to the wall to be safe.

STEP 3 – Roll up your Sleeves:
